WHO ARE WE ?

Founded in 2012, Natural Center Tours was taken over by Pierre in 2016.

Natural Center Tours is a small, human-sized company specializing in outdoor activities and travel in Costa Rica.

"From the beginning, we have been working with the local population to promote responsible and supportive tourism. Our motto is to give **the best customer service** by offering them a wide choice of activities, trips and transport services."

COSTA RICA

Welcome to the land of Pura Vida in Central America. It is bordered by the Pacific Ocean and the Atlantic Ocean.

From the northeast to the southeast, the country is crossed by a volcanic chain that contributes to its ecological wealth.

Costa Rica is a country with a lush biodiversity. It is a paradise for fauna and flora lovers.

It is also one of the few countries in the world that does not have an army. The country and its people have a peaceful attitude; this makes it a perfect place to spend an unforgettable holiday.

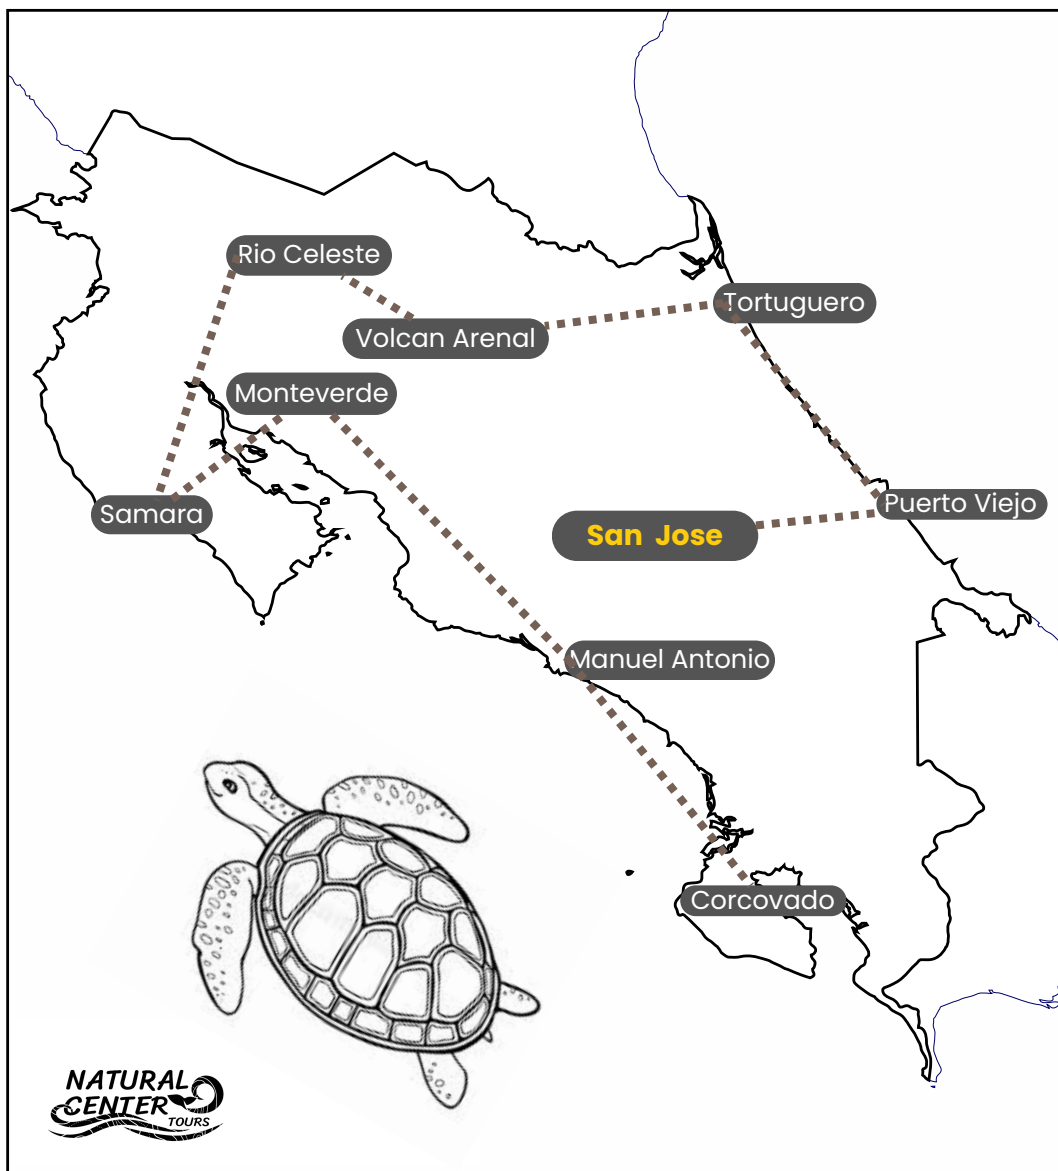

Costa Rica offers you dream landscapes, friendly people ready to share their culture.

Costa Rica offers the perfect combination of relaxation, adventure, culture, gastronomy and wildlife.

It also houses four UNESCO-certified World Heritage sites. The country's plan is to keep its nature intact and authentic experiences.

To support these efforts, the Costa Rican Tourism Institute (ICT) has developed a sustainable tourism certification (CST) program for companies that make an extra effort to offer, through their daily activities, a conscious approach to preserving the environment and the local community.

La Fortuna is also famous for its hot springs, which are heated by the geothermal activity of the Arenal Volcano.

The crystal clear waters of the river fall from a cliff and form a spectacular waterfall.
